Dr. Rohana Haththotuwa

President SAFOG

I am happy to send this message for the 14th SAFOG conference, organised by SAFOG in association with the Federation of Obstetrics and Gynecological Societies of India (FOGSI) and hosted by the Mumbai Obstetrics and Gynaecological Society, and will be held in Mumbai, India.

I wish to congratulate Prof Shyam Desai, President Elect SAFOG, Dr. Hrishikesh Pai president FOGSI, Dr. Madhuri Patel Secretary General FOGSI, Dr. Jaydeep Tank President Elect FOGSI, Dr. Bhaskar Pal FOGSI Representative to SAFOG, Dr. Anahita Chauhan President MOGS and Dr. Shailesh Kore Secretary MOGS and the other leaders of FOGSI and MOGS for organizing this wonderful conference.

SAFOG countries have a significant percentage of the Global population and still make a major contribution to maternal deaths and NCDs globally. Gynaecological cancer rates are still higher in the South Asian region and proportion of deaths due to cancer is also high in our region, Similarly gender based violence is a major concern in South Asia.

I am certain that the 14th SAFOG conference with the theme 'Cutting edge management in ObGyn' will address these issues and would come out with action plans which SAFOG will be able to carry forward in association with the member countries to uplift the women's health and women's rights in our region.

The organisers have come up with an excellent scientific programme involving very knowledgeable speakers not only from South Asia but from around the world. In addition, very informative Pre congress workshops have been planned.

I also thank FIGO and AOFOG for joining in the conference and supporting SAFOG which will further enhance the relationship between our organisations

As we enter the post pandemic world lets reemphasize the value of meeting each other in person and renew our relationships and also make new friends exchange. We all will benefit from our close relationships and strong combined advocacy which would help our members and women.

I invite everyone to the 14th SAFOG conference and look forward to seeing everyone in Mumbai in September.

Cutting edge management in Obstetrics & Gynaecology

Professor Shyam Desai, incoming President of the South Asian Federation of Obstetrics & Gynaecology (SAFOG) and officers, I am delighted to participate in the 14'th SAFOG conference that will take place in September 2023 in Mumbai, India. My respect to the SAFOG committees to have tailored the program with a vision of discussing and debating the 'Cutting edge managements in O & G'. It humbles me to be with my SAFOG colleagues who look after the sexual and reproductive health so admirably of women in nearly 25% of the global population. Without your services there will be no health, wealth, or happiness in the region.

The reputation of the SAFOG as a great organisation Globally should continue. This has been highlighted by the work you have done in significantly reducing maternal mortality in the region, and the work you do against violence against women by advocacy (tackling SDG 3 & SDG 5). To maintain and enhance this respect, the SAFOG has chosen the conference theme to be on 'cutting-edge managements'. Promoting the best cost-effective care based on clinical evidence, evolving technology including data, digital and devices should make members proud and gain respect from the public.

In this era of political uncertainty, climate change related disasters, rise in cost of living, pandemics, and civil unrest we should promote voluntary activity for the betterment of our society. The public should talk about the good things SAFOG members do at the sacrifice of their own time, energy, and money rather than talking negatively about our profession. We should consider advocacy and action for Climate change and Non-Communicable Diseases (NCDs). Activities on climate change and NCDs should help us to improve health of our population. Health organizations are major consumers of energy and use of fossil fuels. We should promote all health organizations, to switch to 100% renewable energy. Solar energy is found in plenty in SAFOG region. We should strive to reduce non communicable diseases, especially obesity and its adverse consequences. Provision of care based on the principles of human rights would enhance the care given to our patients. I am grateful to you for providing me the enormous privilege of being Chief Guest of this prestigious conference which would consider the above aspects.

My very best wishes to each one of you for your good health, happiness, and prosperity

PhD DSc FRCS FRCOG

Past President of the RCOG, FIGO & BMA Visiting Professor, Imperial College, London

Dear colleagues and friends,

We are delighted to share with you that the 14th SAFOG Annual Conference is being organized at the Hotel Lalit, Mumbai on 23rd -24th September, 2023. The Conference theme is **“Cutting Edge Management in Obgyn”** and will have a galaxy of eminent stalwarts who will be present during this landmark event, from the South Asia Region and beyond .

Professor Sir Sabaratnam Arulkumaran, Past President FIGO and RCOG has kindly consented to be the Chief Guest for the Conference. The icing on the cake will be the installation of our very own Dr Shyam Desai, Past President MOGS and FOGSI, as the President of SAFOG.

We will have two SAFOG Conference orations being delivered by Dr Rohana Haththotuwa and Dr Shyam Desai, and MOGS Dr. M. Y Raval Oration by Dr Hrishikesh Pai. The themes for the orations and the keynote addresses have been carefully chosen by the Scientific Committee to reflect the current modern viewpoints in healthcare planning and delivery in our field.

We are excited to offer five pre-congress workshops, including endoscopy, infertility, obstetric dilemmas, obstetric ultrasound and encourage you to participate in any one of them.

You can expect a warm welcome with a Presidential Dinner on Friday 22nd September and a wonderful, glamorous, evening function on Saturday 23rd September with leading celebrities from Bollywood, with SAFOG, FOGSI and MOGS members taking centre stage to the theme of “Cultural highlights of South Asia”

We look forward to your active participation in the Conference and hope to see all of you at this landmark event!
